TOP SECRET

**4 December 1958****MEMORANDUM FOR: Director of Development & Procurement, DPS/DCI****SUBJECT : Exploitation of Equipment for CORONA Photography****REFERENCE : Memorandum for SA/PD/DCI from [redacted] same subject, dtd 12/1/58. (COR-0244)**

1. I have read the referenced memorandum by [redacted] with interest. I find their case persuasive and would in any event be inclined to defer to their judgment in this matter.

2. I am however struck by the fact that there was no discussion in their paper of those limitations of certain Eastman equipments that were alleged by [redacted] in his draft letter. I hope these limitations were looked into, and I would like some comment on them before this matter is finally settled. My understanding from you is that [redacted] criticisms were directed at two processors which are not the ones Eastman is planning to use, but I still would like to know how the Eastman machine overcomes the weaknesses attributed by [redacted]

**RICHARD M. BISSELL, JR.**  
**Special Assistant to the Director**  
**for Planning and Development**

[redacted] (12/3/58)
